

# To All Canyon Residents:

**Subject: Green waste drop off at Aguinaga Green**

This is the Policy:

Residents may drop off green waste that has been removed from their property at no charge.

You must first stop by the office and speak with someone there.

If the resident is not with the person driving the vehicle the driver needs to explain that they have been hired by a resident to do the work, then that individual must explain to the person in the office what they are doing and for whom.

If canyon residents hire a company to remove green, the home owner should provide their phone number because the office might want to call and verify.

This is to stop the abuses of commercial business's that are claiming to be working for residents and are really bringing truck loads from elsewhere to drop off for no fee.

Because of real concerns about security, safety and insurance, residents will only be permitted to drive past the gate to drop off green waste on Saturday's.

This may be done on Saturday's between 8:00 AM and 12:00 PM.

Monday thru Friday there will be a bin by the office during the week for residents to put the green waste into.

There will also be free mulch for residents and a 50% discount to residents on any compost products.

If removing of green waste is being done as a business for local residents then, the individual doing this may tell the office and receive a 50 % discount on the normal drop off fee.
